## **EXPLANATORY NOTES**

1. This is Extension of authorisation number 1911 of 2019 and supersedes 1787 of 2019.
2. This Extension of authorisation will be published on the website of the Chemicals Regulation Division of the HSE.
3. Application reference number: COP 2018/02625
4. Persons using the product to which this Extension of authorisation applies should acquaint themselves with and observe all requirements contained in the Regulation (EC) No 1107/2009, including the duty on the holder of any Extension of authorisation to notify information on potentially dangerous effects, a contravention of which is a criminal offence under those Regulations.
5. Neither the efficacy nor the phytotoxicity of the product for which this Extension of authorisation has been granted has been assessed and, as such, the user bears the risk in respect of failures concerning its efficacy and phytotoxicity.

## **ADVISORY INFORMATION**

**IMPORTANT:** When applying this product under the terms of this Extension of Authorisation, comply with any resistance guidance or restrictions stated on the product label.

Total reliance on one pesticide will hasten the development of resistance. Pesticides of different chemical types or alternative control measures should be included in the planned programme. Alternating with different modes of action is a recognised anti-resistance strategy.

This Extension of Authorisation relates to the use of 'Fytosave' (M18433) on crops of table grapes and wine grapes grown outdoors and the crops of ornamental plant production, lettuce, rocket, baby leaf crops and various herbs grown outdoors, under protection and under permanent protection with full enclosure for the control of powdery mildew and downy mildew.

This product should be applied via horizontal boom arm or hand held sprayers in the following water volumes:

Table and wine grapes: 400 to 1000 litres of water per hectare.

Ornamental plant production: 1000 litres of water per hectare.

Lettuce, rocket, baby leaf crops and various herbs: 500 to 1000 litres of water per hectare.

This Extension of Authorisation has been re-issued to amend the maximum individual dose of protected, outdoor and under permanent protection with full enclosure ornamental plant production. This notice replaces authorisation 20191787 which will be withdrawn immediately.

## APPENDIX 1: CONDITIONS OF EXTENSION OF AUTHORISATION

The conditions below are obligatory. They must be complied with when the Extension of authorisation occurs. Failure to comply with the following conditions will result in the withdrawal or amendment of the Extension of authorisation under Regulation (EC) No 1107/2009 and may result in other enforcement action, including prosecution. For the purposes of this Extension of authorisation only, the conditions and/or requirements shown below supersede any corresponding conditions and/or requirements set out on the label or otherwise provided for under the product authorisation **which would otherwise apply**.
