

SAFETY DATA SHEET according to Regulation (EU) 2020/878

Version 1 UK - EN

Issue date: 07/02/22

Revision date: -

Page 1 of 8

SECTION 1. Identification of the Substance/Mixture and of the Company/Undertaking

1.1 Product identifier

Trade name and/or other names and company product codes by which the mixture can be identified

FytoSave®

Code name: Fyto11

1.2 Relevant identified uses of the mixture and uses advised against

1.2.1 Relevant identified uses

FytoSave is for the control of powdery mildew on a range of fruits and vegetables.

1.2.2 Uses advised against

Do not use for any other purpose.

1.3 Details of the supplier of the safety data sheet

FytoFend S.A.

Rue Georges Legrand, 6

5032 Isnes

Belgium

Telephone: + 32 (0) 81.728.840

E-mail address: info@FytoFend.com

Web: www.FytoFend.com

1.4 Emergency telephone number

National Emergency Telephone Numbers

UK National Poisons Information Service

0844 892 0111

Availability

24h

Time Zone

GMT

Language(s) of the service

English (for health professionals only)

SECTION 2. Hazards Identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) no. 1272/2008

This product is not classified as hazardous under Regulation (EC) No. 1272/2008

2.2 Label elements

Labelling according to Regulation (EC) no. 1272/2008

Hazard pictograms

None

Signal Word

None

Hazard Statements

None

Precautionary Statements

General P102: Keep out of reach of children.

Prevention P270: Do not eat, drink or smoke when using this product.

Response -

Storage -

Disposal P501: Dispose of contents/container to a licensed hazardous waste disposal contractor or collection site except for empty clean containers which can be disposed of as non-hazardous waste.

Supplemental Hazard Information:

EUH401: To avoid risks to human health and the environment, comply with the instructions for use.

SPo: Do not re-enter areas/crops before the spray deposit is completely dry.

SAFETY DATA SHEET according to Regulation (EU) 2020/878

Version 1 UK - EN

Issue date: 07/02/22

Revision date: -

Page 2 of 8

SP1: DO NOT CONTAMINATE WATER with the product or its container. Do not clean application equipment near surface water. Avoid contamination via drains from farmyards and roads.

2.3 Other hazards

None known. This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

SECTION 3. Composition/Information on Ingredients

3.2 Mixtures

Description of the mixture:

Mixture of COS-OGA and co-formulants. The active substance is listed as a Low-risk under Reg. (EC) 1107/2009 and is not classified as hazardous under Reg. (EC) 1272/2008

Chemical Name	CAS-No.	EC-No.	Index No.	Concentration (W/W)	CLP (Reg. 1272/2008) Classification
COS-OGA	-	-	-	1.02 %	Not classified
Other ingredients				to 100%	Not classified

Additional information

None

SECTION 4. First Aid Measures

4.1 Description of first aid measures

General advice:

If medical advice is needed, have product container or label at hand.

If swallowed:

IF SWALLOWED: Rinse mouth. Call a POISON CENTER or a doctor.

If inhaled:

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or a doctor if you feel unwell.

In case of skin contact:

IF ON SKIN: Take off contaminated clothing. Wash with Plenty of Water. If skin irritation occurs: Get medical Advice. Wash contaminated clothing before reuse.

In case of eye contact:

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice.

Self-protection of first aider

No specific personal protective equipment is recommended for first aid responders.

4.2 Most important symptoms and effects, both acute and delayed

The symptoms indicated in this section refer to an accidental exposure scenario

If inhaled:

Possible slight nasal irritation and discharge. No delayed effects expected.

In case of skin contact:

Possible slight transitory redness. No delayed effects expected.

In case of eye contact:

Possible slight irritation and redness. No delayed effects expected.

If swallowed:

Possible mild gastrointestinal effects. No delayed effects expected.

4.3 Indication of any immediate medical attention and special treatment needed

No data available

SAFETY DATA SHEET according to Regulation (EU) 2020/878

Page 3 of 8

SECTION 5. Firefighting Measures

5.1 Extinguishing media

Suitable extinguishing media:

Water spray, CO₂, foam or multi-purpose dry powder extinguishers.

Unsuitable extinguishing media:

Solid water jet.

5.2 Special hazards arising from the substance or mixture

No special hazards expected from combustion products.

5.3 Advice for firefighters

A Self-Contained Breathing Apparatus (SCBA) is recommended to avoid inhalation of dust and combustion fumes.

Fight fire in early stages only if safe to do so. Keep containers cool with water spray.

5.4 Additional information

Provide work areas and storage with correct fire extinguishers. Call the Fire Brigade immediately to deal with all fires involving PPPs unless the fire is small and immediately controllable. Spray unopened containers with a mist spray to keep cool. If without risk, remove intact containers from fire exposure. Contain water used for firefighting, bunding if necessary with sand or earth. Do not allow contamination of public drains or ground or surface waters. Dispose of fire residues and contaminated water as advised in the MAFF/HSE "Pesticides: Code of Practice for the Safe Use of Pesticides on Farms and Holdings".

SECTION 6. Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

This product must be handled according to the rules of hygiene and safety for the manipulation of non-hazardous chemicals. Use personal protective equipment. Avoid breathing vapours, mist or gas.

6.2 Environmental precautions

Prevent entry into drains, waters or soil. Use a neutral absorbent material to collect spillage and sweep it as much as possible. Flush residues with water. Inform the local water company if the release enters drains and the Environment Agency (England and Wales), the Scottish Environmental Protection Agency (Scotland) or the Environment and Heritage Service (Northern Ireland) if it enters surface or ground waters.

6.3 Methods and material for containment and cleaning up

For containment

Prevent entry into drains, waters or soil. Use a neutral absorbent material to collect spillage and sweep it as much as possible. Flush residues with water.

For cleaning up

Use a damp cloth to clean floors and other objects after removal of contaminated absorbent. Do not reintroduce into original container. Place contaminated absorbent and used cleaning materials into closable and identified containers. Treat as waste.

6.4 Reference to other sections

Refer to Section 8 for personal protective equipment and to Section 13 for disposal instructions.

SECTION 7. Handling and Storage

7.1 Precautions for safe handling

This product must be handled according to the rules of hygiene and safety for the manipulation of non-hazardous chemicals. Do not eat, drink or smoke when handling the product. Wash hands with water after handling. No protective equipment specifically required, as the mixture is of very low acute toxicity.

7.2 Conditions for safe storage, including any incompatibilities

The mixture is stable under normal ambient conditions. Keep the product in its original container. Keep in a dark and temperate place (not below 5°C). Container must be labelled and kept closed. Store away from children, domestic animals, food, drink and animal feeding stuff.

7.3 Specific end use(s)

SAFETY DATA SHEET according to Regulation (EU) 2020/878

Version 1 UK - EN

Issue date: 07/02/22

Revision date: -

Page 4 of 8

Product for use as directed by the product label, every other use is hazardous.

SECTION 8. Exposure Control/Personal Protection

8.1 Control Parameters

Components with workplace control parameters

The mixture contains no substances with Occupational Exposure Limit values.

8.2 Exposure controls

8.2.1 Appropriate engineering controls

No specific engineering controls needed. Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

8.2.2 Personal protection equipment

Eye and face protection

Avoid contact with eyes. No specific protection required

Skin protection:

Hand protection: Wear suitable protective gloves against chemicals EN 374 part 2 (disposable ones for single use) or part 3 (for repeated uses)

Body protection: Avoid contact with skin. If there is a significant potential for contact, wear suitable coveralls

Respiratory protection:

Avoid inhaling the product or its spray. No specific respiratory protection required.

8.2.3 Environmental exposure controls

Follow all National and local environmental protection legislation. Refer to Section 15. Do not contaminate water with the product or its container. Do not clean application equipment near surface water. Avoid contamination via drains from farmyards and roads. Refer to Section 12 and 13.

SECTION 9. Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

All the data contained in this section are derived from studies on the mixture unless stated otherwise.

- | | |
|---|--|
| a) Physical state: | Homogeneous liquid with a gelatinous aspect (after shaking – before shaking 2 separated liquid phases) |
| b) Colour: | Beige |
| c) Odour: | Slight odour |
| d) Melting point/freezing point: | Not determined |
| e) Boiling point or initial boiling point and boiling range: | Not determined |
| f) Flammability: | Not relevant for a SL formulation |
| g) Lower and upper explosion limit: | Not relevant for a SL formulation – not explosive |
| h) Flash point: | Not relevant for a SL formulation |
| i) Auto-ignition temperature: | Not relevant for a SL formulation |
| j) Decomposition temperature: | 296.3°C (COS-OGA active substance) |
| k) pH: | 5.00 – 6.00 (1% dilution @ 16°C) |
| l) Kinematic viscosity: | 85 mPa.s to 12 mPa.s (@20°C, shear rate of 10.6 to 665 s ⁻¹ , Dynamic)
88 mPa.s to 10 mPa.s (@40°C, shear rate of 10.6 to 665 s ⁻¹ , Dynamic) |
| m) Solubility: | Completely soluble in water |
| n) Partition coefficient: n-octanol/water: | Not determined |
| o) Vapour pressure: | Not determined |
| p) Density and/or relative density: | 1.15 – 1.25 (20°C) |
| q) Relative vapour density: | Not determined |
| r) Particle characteristics: | Not relevant for a SL formulation |

9.2 Other information

SAFETY DATA SHEET according to Regulation (EU) 2020/878

Version 1 UK - EN

Issue date: 07/02/22

Revision date: -

Page 5 of 8

None

SECTION 10. Stability and Reactivity

10.1 Reactivity

Non-reactive when stored in original container under normal conditions of storage and use.

10.2 Chemical stability

Slight phase separation may occur. Shake before use. Stable when stored in original container under normal conditions of storage and use.

10.3 Possibility of hazardous reactions

No hazardous reactions expected if stored in original container under normal conditions of storage and use.

10.4 Conditions to avoid

No specific conditions to avoid. Stable under normal conditions of storage and use.

10.5 Incompatible materials

Avoid contact with strong oxidizing agents, acids or bases.

10.6 Hazardous decomposition products

No dangerous products of decomposition expected

SECTION 11. Toxicological Information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

11.1.2 Mixtures

All the data contained in this section are derived from data on the mixture unless stated otherwise. The active substance is listed as a Low-risk under Reg. (EC) 1107/2009. No health hazards are expected.

a) Acute toxicity:

LD₅₀ oral, rat:

> 2000 mg/kg body weight. Classification criteria not met.

LD₅₀ dermal, rabbit:

Based on data from the active substance and the components, classification criteria not met.

LC₅₀ inhalation, rat:

Based on data from the active substance and the components, classification criteria not met.

b) Skin

corrosion/irritation:

Based on data from the active substance and the components, classification criteria not met.

c) Serious eye

damage/irritation:

Based on data from the active substance and the components, classification criteria not met.
Not Irritant.

d) Respiratory or skin sensitization:

Based on data from the active substance and the components, classification criteria not met.
Not sensitising

e) Germ cell mutagenicity:

Based on data from the active substance and the components, classification criteria not met.

f) Carcinogenicity:

Based on data from the active substance and the components, classification criteria not met.

g) Reproductive toxicity:

Based on data from the active substance and the components, classification criteria not met.

h) STOT – single exposure:

Based on data from the active substance and the components, classification criteria not met.

i) STOT – repeated exposure:

Based on data from the active substance and the components, classification criteria not met.

j) Aspiration hazard:

Based on data from the active substance and the components, classification criteria not met.

Likely routes of exposure and related long and short term symptoms and health effects:

Inhalation: There is a low risk of exposure by inhalation.

Short-term symptoms and effects:

Possible slight nasal irritation and discharge.

Long-term symptoms and effects:

No evidence of long-term effects after prolonged or repeated exposure.

Eye contact: There is a low risk of exposure by eye contact.

SAFETY DATA SHEET according to Regulation (EU) 2020/878

Version 1 UK - EN

Issue date: 07/02/22

Revision date: -

Page 6 of 8

Short-term symptoms and effects:

Possible slight transitory redness.

Skin contact: There is a risk of exposure by skin contact.

Short-term symptoms and effects:

Possible slight transitory redness.

Ingestion: There is a very low risk of accidental exposure by ingestion.

Short-term symptoms and effects:

Possible mild gastrointestinal effects.

Long-term symptoms and effects:

No evidence of long-term effects after prolonged or repeated exposure.

Long-term symptoms and effects:

No evidence of long-term effects after prolonged or repeated exposure.

Long-term symptoms and effects:

No evidence of long-term effects after prolonged or repeated exposure.

Information on other hazards

None

SECTION 12. Ecological Information

All the data contained in this section are derived from data on the mixture unless stated otherwise. The active substance is listed as a Low-risk under Reg. (EC) 1107/2009. No environmental hazards are expected.

12.1 Toxicity

EC₅₀ fish, <i>Danio rerio</i> (96h):	228 mg/l (COS-OGA active substance)
EC₅₀ aquatic invertebrates, <i>Daphnia magna</i> (48h):	> 100 mg/l
ErC₅₀ algae, <i>Pseudokirchneriella subcapitata</i> (72h):	> 100 mg/l
EC₅₀ earthworms, <i>Eisenia fetida</i> (4w) :	> 1000 mg test item/kg dry soil
LD₅₀ honey bees oral, <i>Apis mellifera</i> (48h)	> 10 µg COS-OGA/bee
LD₅₀ honey bees contact, <i>Apis mellifera</i> (48h)	> 12.5µg COS-OGA/bee

12.2 Persistence and degradability:

Not expected to be persistent

12.3 Bioaccumulative potential:

Not expected to have bioaccumulation potential

12.4 Mobility in soil:

Not determined

12.5 Results of PBT and vPvB assessment:

Does not fulfil the criteria for classification as PBT or vPvB.

12.6 Endocrine disrupting properties:

None known.

12.7 Other adverse effects:

None known.

SECTION 13. Disposal Considerations

13.1 Waste treatment methods

Disposal of waste product, contaminated packaging materials and any excess diluted spray should be in accordance with 'The Hazardous Waste (England and Wales) Regulations 2005' and any other applicable local or national legislation (for guidance refer to the MAFF/HSE "Pesticides: Code of Practice for the Safe Use of Pesticides on Farms and Holdings").

For the handling and management of accidental release, follow the information given under Section 6 and 7.

SECTION 14. Transport Information

The mixture is not classified as hazardous for transport

14.1 UN number or ID number

-

14.2 UN Proper shipping name

-

14.3 Transport hazard class(es)

-

14.4 Packing group

-

14.5 Environmental hazards

-

SECTION 15. Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

EU Regulations

REGULATION (EC) No 1107/2009 of The European Parliament and of the Council of 21 October 2009 concerning the placing of plant protection products on the market and repealing Council Directives 79/117/EEC and 91/414/EEC.

REGULATION (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006.

REGULATION (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, including amendments.

COMMISSION REGULATION (EU) No 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

National Regulations/legislation:

The Chemicals (Hazard Information & Packaging for Supply) Regulations 2009 (CHIP 4)

Health and Safety at Work etc. Act 1974, as amended, the Control of Substances Hazardous to Health Regulations 1999 (COSHH), as amended.

15.2 Chemical Safety Assessment

No Chemical Safety Assessment under Regulation (EC) 1907/2006 is required and has been carried out.

SECTION 16. Other Information

a) History of changes:

The numbering system of this SDS is incremental in order to identify easily new versions and/or revisions. An increment by a unit identifies a new version requiring provision of updates according to Article 31(9) of REACH, while an increment by a decimal identifies minor changes (typo, small improvements, formatting...).

Revisions indicated by a decimal point are of no effect on the risk management measures or information on hazards
Paragraphs changes are indicated by the symbol '||' in the margin.

Differences between this version and the previous one: This is the first version of this document under this format (Reg. (EU) 2020/878).

b) Abbreviations and acronyms used:

STOT: Specific Target Organ Toxicity

c) Key literature references and sources for data:

FytoFend S.A.

Suppliers' Data Sheets

ECHA Guidance on the compilation of safety data sheets

ECHA guidance on the Application of the CLP Criteria

d) Procedure used to classify the mixture according to Article 9 Regulation (EC) 1272/2008 [CLP]

Classification according to Regulation (EC) 1272/2008	Classification procedure
This product has not been classified as hazardous under Regulation (EC) 1272/2008.	On the basis of study results and the calculation method from component information

SAFETY DATA SHEET according to Regulation (EU) 2020/878

Version 1 UK - EN

Issue date: 07/02/22

Revision date: -

Page 8 of 8

e) Relevant Hazard statements and precautionary statements not written out in full under Sections 2 to 15:

None

f) Training advice:

General occupational hygiene and safety practice training recommended.

g) Further information:

The information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship. This Safety Data Sheet (SDS) is a complement to the technical brochure of the product but does not replace it. The information and data presented are based on our knowledge of the product as of the data quoted above.

Except as set forth above, FytoFend S.A. makes no warranties, whether express, implied or statutory, as to the product which is the subject of this document. Without limiting the generality of the foregoing, FytoFend S.A. makes no warranty of merchantability of the product or of the fitness of the product for any particular purpose. Buyer assumes all risk and liability resulting from the use or sale of the product whether singly or in combination with other goods. The information set forth herein is furnished free of charge and is based on technical data that FytoFend S.A. believes to be reliable. It is intended for use by persons having technical skill and at their own discretion and risk. Since conditions of use are outside FytoFend S.A.'s control, FytoFend S.A. makes no warranties, express or implied, and assumes no liability in connection with any use of this information.

Nothing herein is to be taken as a license to operate under or a recommendation to infringe any patents.

This Safety Data Sheet has been compiled by FytoFend S.A. (info@FytoFend.com) in compliance with Regulation (EC) 1907/2006 as amended by Regulation (EU) 2020/878.
